- To **Resume gameplay:** START
- To **Cycle through available weapons:** Y or L
- To **Cycle through available remotes:** X or R

Our hero's car has crashed on Planet Goth, and he has to score another set of wheels lest he keep his blind date waiting. Lo! The denizens are unfriendly! And it's no cakewalk for our android son, who must dispose of the hostile natives before they run him out of town.

You must use your wit and B.O.B.'s firepower to get out of Dodge and onward to the date. Begin on Planet Goth with three lives, a single-shot gun (50 rounds) and a trampoline remote (3 charges). You have to make your way through the level until you reach the swirling orange teleporter. Along the way, B.O.B. must deal with a slew of enemies and obstacles. And he has to use strategy and agility in order to upgrade his weapons, remotes and energy level.

When B.O.B. finally reaches a swirling orange teleporter, he is transported to the surface of Goth, and he enters the

next level. Sooner or later B.O.B. is bound to find a car he can drive to pick up his date. In any case, be prepared to visit two other worlds, Anciena and Ultraworld. And be prepared to encounter some straaaaannnge creatures!

SCORING

B.O.B. scores big when he offs his enemies! When he nets 200,000 points he gets another life!

Lives

You begin the game with three lives. Whenever B.O.B.'s Power Bar disappears, he loses a life. The game is over when he loses all of his lives.

The Clock

This tells you how much time you have to complete the level. It runs backwards. When you're time is down to zero, your power bar quickly runs out, and that's all folks!

Wrenches, Energizers & 1-ups

Wrenches revitalize B.O.B.'s 'Power'. Look for these and be sure to grab them.

A 1-up icon gives B.O.B. another life.

- To pick up a wrench or a 1-up: Pass over them. If the items are out of reach, jump or use a remote.

B.O.B. can be revitalized by entering a recharger.

- To enter a recharger: Position B.O.B. in front of it and press the **Control Pad** up.
- To exit a recharger: Press the **Control Pad** down.

B.O.B. can enhance his arsenal by picking up extra ammunition and remotes while on the run.

- To pick up guns and remotes while on the run: Pass over them. If the items are out of reach, jump or use a remote.

Power Bar

This is not candy! It shows how much energy B.O.B. has left. When B.O.B.'s energy reaches 50% the Power Bar turns orange. When his energy reaches 25% the Power Bar turns red. When the Power Bar disappears B.O.B. disappears!

Boss Energy Bar

The Boss Bar shows the energy level of a Boss, which is an unusually wicked monster B.O.B. encounters now and then. When the Boss's energy reaches 50% the Boss Bar turns orange. When its energy reaches 25% the Boss Bar turns red. When the Boss Bar disappears the Boss disappears. At levels without a Boss the meter is solid gray.

GUNS 'n' REMOTES

This is not a rock band. B.O.B. can shoot six kinds of ammunition from his gun arm. Remotes are the tricked out gadgets he pulls out in crisis situations.

NOTE: Remotes cannot be used when B.O.B. is crouching or hanging onto a ladder, pipe or vine. Likewise, B.O.B. cannot punch when he's hanging on to something else.

Remember to conserve ammunition. When fully charged, B.O.B. has a maximum 99 shots per gun. And he can have a maximum of nine remotes.

Guns

 **Single-shot** The weakest of the weapons.

 **Triple-shot** Moderate power, wide effect.

 **Flame-thrower** Toast! For long range sizzling, hold button down.

Rocket

Finds target all by itself.

Bolt

Good power.

Wave

Awesome power and effect!

Remotes

Flash

Temporarily freezes the enemy in place.

Shield

Temporarily surrounds B.O.B. in a force field. No enemies can hurt him (unless he walks through them). When the shield starts flashing you know it's about to wear off.

Umbrella

Saves B.O.B. from falls. He can only open it while he is falling.

Trampoline

Hurls B.O.B. upward. He doesn't have to be on the ground to use one.

Helicopter Hat

B.O.B. flies! Stay away from the walls and ceiling!

Floating Bomb

Floats, counts down and blows! B.O.B. can unleash them in rapid succession.

The Remote Indicator shows the remote B.O.B. is ready to use.

From the Inventory Screen

- To access the Inventory Screen: Press **START**. The game is paused, and B.O.B.'s circuit board appears. Available guns and remotes are brightly lit, while unavailable weapons are dimmed.
- To select a gun: Press **L** or **Y** to move the white box over the gun you want to use.
- To select a remote: Press **R** or **X** to move the white box over the remote you want to use.
- To return to play: Press **START**.

NOTE: You cannot pause the game or access the inventory screen when you're fighting the last boss at its final phase.

On the Run

As B.O.B. is running to get through the world, he sees icons representing guns and remotes.

- To pick up guns and remotes while on the run: Pass over them. If the icons are out of reach, jump or use a remote to pick up the weapon.

Tiger Fish

Every so often B.O.B. encounters a real monster. These Bosses are so brutal and ruthless that B.O.B. has to take it to the max. Some even send scouts to test B.O.B. B.O.B. can shoot until the scout flees, in which case the Boss gives B.O.B. a fighting chance.

NOTE: You cannot pause the game or access the inventory screen when you're fighting the last boss at its final phase. If B.O.B. destroys a scout the Boss has no mercy. Watch your back! Or better yet, just fire enough ammo to scare the scout away.

SAVING AND RESTORING A GAME

Saving a Game

You can save your progress and return to the game at the approximate level at which you left, but you lose any extra ammunition and remotes you may have accumulated.

- To Save a game:
 - 1) Press **START** to go to the Inventory screen.
 - 2) Copy the six-digit password that appears in red directly below B.O.B. **WRITE IT DOWN AND KEEP IT IN A SAFE PLACE.** You won't be able to restore the saved game without the password.

NOTE: Every so often you are given a password. You can copy it down immediately or you can go to the Inventory screen at any time to view it.

You may now turn off your Super NES safely.

Restoring a Game

Start B.O.B. as instructed in GET IT GOING. After the title and credit screens appear, the Set-up screen appears.

- To Restore a game:
 - 1) Choose "Continue" from the Set-up screen: Press the **Control Pad** down, then press **START**.
 - 2) Press the **Control Pad** up/down to enter the first digit of your password.
 - 3) Press the **Control Pad** right until the next digit is flashing.
 - 4) Repeat steps 2 and 3 until the entire password is entered.
 - 5) Press **START** to restore the game.

When you resume a game with a password, you begin the level with a single-shot gun (50 rounds) and a trampoline remote (3 applications).
